

ITALY RENAISSANCE CAMP 2024

FROM INQUIRY TO INSIGHT: RENAISSANCE STUDY TOUR

The Italy Renaissance camp is an academic study tour where students will learn about the Renaissance first-hand whilst travelling around Italy. Through a combination of study tours and Masterclasses, students will uncover the foundation of Renaissance knowledge: history and culture, art and architecture, politics and science.

Students will travel through Italy following research questions in each of these areas, experiencing some of the most amazing art, architecture, culture and food in the world. Guided by first-class mentors through discussions and masterclasses, students will use this collected knowledge to answer and present a relevant research question.

WELCOME TO ITALY!

- Situated in the picturesque Lake Como, students will enjoy an elevated learning experience at an e-campus university.
- Students will discover the riches of the Renaissance as they explore Rome, Florence, and Venice, discovering iconic hallmarks of culture and history that have stood the test of time.
- Engage in hands-on learning amidst Italy's beautiful landscapes where every lesson becomes a remarkable experience!

ART, CULTURE & CURIOSITY

This programme aims to offer a unique hands-on experience to discover the values and advancement of Renaissance history, art, culture, and science. Draw inspiration from iconic visionaries such as Leonardo da Vinci and Michelangelo, visit the famous Roman Colosseums, and ride a gondola down the “floating city” of Venice - this camp provides an immersive opportunity to ignite curiosity and expand understanding.

SPLIT INTO TWO PARTS, THE RENAISSANCE CAMP IS STRUCTURED AS FOLLOWS...

1

IMMERSIVE CULTURAL EXPLORATION

During the first half of the programme, students will immerse themselves in a hands-on encounter with Italy's captivating beauty.

2

INSPIRATION AND ACADEMIC GROWTH

In this academic segment, students will engage in thought-provoking discussions, take masterclasses in Renaissance topics, and cultivate their research skills.
